

» The Ergonomic

ELTRONO® ERGO offers even more ergonomic features and is especially developed for users that are spending many hours without interruption in front of monitors.

The easy and quick »Ergo-Tilt™«, enables the table top as well as the monitor shelf to tilt from 0 to 15 degrees in order to provide the best possible working position.

This feature alleviates the pressure on the body and reduces stress related disorders.

- + WORK SURFACE, DIVIDED IN TWO PARTS
- + TILTABLE MAIN WORK SURFACE
- + MOUSE PAD, EMBEDDED IN WORK SURFACE
